

PLDT Inc.'s Proposed U.S.-Dollar Senior Unsecured Notes Rated 'BBB+'

June 15, 2020

SINGAPORE (S&P Global Ratings) June 15, 2020--S&P Global Ratings today assigned its 'BBB+' long-term issue rating to the proposed issuance of U.S. dollar-denominated senior unsecured notes by PLDT Inc. (BBB+/Stable/--). The issue rating is subject to our review of the final issuance documentation.

We expect the company to use the proceeds to refinance debt maturing in 2020 and 2021, prepay outstanding loans, and partially finance capital expenditure.

We equalize the rating on PLDT's proposed senior unsecured notes with the issuer credit rating on the company. This is because we do not view PLDT's capital structure as having material structural or contractual subordination risks.

As of March 31, 2020, the company's capital structure consists of Philippine peso (PHP) 205.3 billion of debt (excluding lease obligations). All debt is unsecured, and about 40% of debt is held at the subsidiaries' level. This is below the 50% priority debt ratio threshold, over which we consider senior unsecured lenders at the parent level may be disadvantaged in the event of financial stress.

In our view, PLDT has limited rating headroom at the 'BBB+' level. We expect the company's capital expenditure to remain elevated over the next few years. This is to improve network coverage and capacity to support higher mobile data traffic, as well as last-mile connectivity for home broadband services. There will also be increased competition when third player Dito Telecommunity Corp. enters the duopolistic telecommunications market in the Philippines. Dito's entry was postponed and is now slated for the first half of 2021.
